

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

BETTER THAN A SAVINGS BANK.

The consecration of the Christian to the service of his Master will, if complete, include his property as well as his time, his talents and his influence. He will feel that he is only a steward of God's bounty, and that he is under obligation to use that bounty for the benefit of his fellow men. Thousands realize this obligation, and contribute liberally to promote the benevolent enterprises of the age. Many would regard it a privilege to give not only the whole of their income above their present necessities, but the accumulations of past years, and *would* do so but from fear that the vicissitudes of fortune, or the infirmities of declining years, may render these accumulations necessary for their future support. Hence, as they do not like to place their property entirely beyond their reach, they retain it in their hands, with the trouble and expense of its management; and finally, being called suddenly away, with no time to make their wills, it is left to those who may have no need of it, and thus their benevolent wishes are defeated.

But we have a plan to suggest which will enable such persons to do good with their money at once, and at the same time provide equally well, if not better, for their future needs. The plan is to *deposit such sums as they can spare from time to time with the AMERICAN PEACE SOCIETY, and receive its obligation to pay the interest on the same annually in the publications of the Society, and the principal in money, at such times as it may be called for during the lifetime of the depositors, or, if not called for then, to be a donation to the Society at their decease.* Thus these sums will all be within their reach at any time, if needed, and if never needed by them, would be made sure to a cause of vast importance to the world.

This plan was not of our own seeking, but was first urged upon us by our friends. It began with one in Pennsylvania, who sent us *One Thousand Dollars*, on the condition that we should allow him five per cent. interest during his life. We gave the obligation desired; but to the day of his death, he sent us every six months his receipt for the interest as a donation to the cause. Another friend, much younger, has at different times already deposited *Seven Hundred Dollars* on the condition stated in the preceding paragraph, expecting never to call for anything except the interest, but having the right to require the principal at any time, if he wishes.

Now, are there not thousands more who will loan to the Society such sums as they can spare, on these terms, instead of making additional investments, which may result in their own disadvantage, and that of those who would inherit them? Such help will be very opportune *now*, when the Society is making special efforts to extend its operations, and the publications to be furnished as interest, and which can be sold or given away, will exert a powerful influence for good hereafter. We think such deposits will be quite safe, as the Society, with a liberal charter from the State of Massachusetts, already has permanent funds more than sufficient to cover all deposits that it will ever consent to receive on the conditions proposed.

Those who wish to lay up their money where they can

have it whenever they may want it, and where it will do good, if they do not want it, can address Rev. GEO. C. BECKWITH, No. 40 Winter Street, Boston, Mass., or Rev. A. LORD, No. 7 Custom House Place, Chicago, Ill.

MONEY—ITS USE IN PEACE.

The feeling is general that we may do what we please with our money. So we may; but God will hold us in the last day to a strict account for the use we make of it as his stewards. Property, like every other talent committed to our care, is a sacred and important trust. How many good objects can it be made to accomplish! It may feed the hungry, and clothe the naked; may heal the sick, and relieve the suffering; may educate the ignorant, and reclaim the vicious; may provide asylums for the insane, the blind, and other victims of misfortune; may cure or prevent a thousand forms of ill that flesh is heir to; but, more than all, it may send the gospel, God's grand remedy for human woes, to millions perishing in ignorance and sin.

Among so many beneficent uses of your money, it would seem as if you could hardly go amiss; but let us call your attention to one which you may have overlooked. Have you inquired how much good you might do by contributing *largely* to that cause which seeks to hasten God's promise of a day when nations shall learn war no more? This promise, you know well, has never yet been fulfilled; but it can be, must be, will be. Do you ask when? Just when the means He has prescribed for the purpose, shall be used aright. No Christian can doubt this; for God has promised it in his word as distinctly, as unequivocally, as he has the world's conversion to Christianity, or even the salvation of any penitent believer in Christ. A consummation how ineffably important and glorious! What a jubilee would there be in heaven on seeing an end put forever to this great sin and scourge of our race in all ages—no more WAR or PREPARATION for WAR!

By what other use of your money, then, can you prevent more evil, or secure more good? Christendom is now keeping under arms from five to seven million warriors, the very bone and sinew of their power and prosperity, to sustain her war-system even in peace, and spending, in one way and another, some two thousand million dollars every year. What an immense waste of money and moral power! Enough, if rightly applied, to carry on the work of evangelizing half a dozen such worlds as ours.

Now, we would undervalue none of the popular modes of doing good. It is a noble charity to relieve the poor, to reform the vicious, or provide for the sufferers from a pestilence or a conflagration; but a fraction of the money requisite for such purposes, would be likely in the cause of peace to save millions from poverty, and hundreds of thousands from widowhood and orphanage, from disease and death. A single million of dollars, perhaps half a million a year, if used aright in this cause, might suffice to put a stop ere-long to all actual war in Christendom, and an end at length to her whole war-system. Can you conceive a better use of money?

AM. PEACE SOCIETY'S PUBLICATIONS.

VOLUMES.

	Price.
1. BOOK OF PEACE: a Collection of Essays on Peace and War. Cloth. 12mo pp. 606.....	\$1 50
